

2012 Tree Seedling Distribution Program

Severn Sound Environmental Association (SSEA), North Simcoe Stewardship and the Town of Midland are working together to provide residents with reasonably priced, native tree seedlings for planting in early spring 2012.

Tree/shrub seedling species and prices are listed for landowners interested in purchasing and planting trees. Seedlings are bare-root plants (i.e., not potted) and are sold in bundles of 10. The age and size of seedlings varies by species – seedlings are 1 to 5 years old, and approximately 20 to 100 cm (8 to 39”) in height with a stem diameter of ½ cm (1/4”).

Species	Price per bundle (includes tax)
White Pine	\$12.00
White Spruce	\$12.00
White Cedar	\$12.00
Balsam Fir	\$17.00
Tamarack	\$12.00
Red Oak	\$15.00
Sugar Maple	\$20.00
Red-osier Dogwood	\$11.00
Nannyberry	\$22.00

The deadline for ordering trees is Friday, January 27th, 2012. Orders received after this date will not be accepted. A limited number of seedlings are available and we often sell out of many species – order early to avoid disappointment.

To place a seedling order, fill out the form online at www.severnsound.ca/trees.htm or telephone Michelle Hudolin at Severn Sound Environmental Association (705-527-5166 ext. 202). SSEA staff will verify that the requested stock is available, confirm your payment amount, and provide payment instructions within one week of your order.

Payment is due by Tuesday, January 31st, 2012. Tree orders will not be processed unless payment is received by this date. Payment options include personal cheque or money order (payable to: Severn Sound Environmental Association). Post-dated cheques will NOT be accepted.

*Note: There are no refunds on orders less than \$40.00,
and no refunds on orders cancelled after January 27th, 2012.*

The pick-up day for tree orders will be a Saturday, either in late April or early May 2012 (dependent on weather conditions and the nursery’s schedule). Receipts and pick-up instructions will be sent in early April 2012.

For more information, including details on age and size of species, and guidelines on site preparation and species selection, visit: www.severnsound.ca/trees.htm
